

Call for External Quality Expert – Experience in Educational project and Sustainability project Impact Assessment

About: [SMALEI](#) - Sustainability Matrix for Adult Learning Education and Institutions is an Erasmus+ funded project that is closing in February 2023. SMALEI raise awareness about the environmental and climate change challenges and enable ALE to take concrete actions towards sustainable growth. A Sustainability Matrix for ALE institutions is available online to assess the existing conditions of sustainability aspects, hands-on tools and policy recommendations in ALE organisations.

Objective: We are seeking an external quality expert to assess the impact of the SMALEI project, which includes an online sustainability matrix and a policy roadmap for adult education institutions. The external quality expert will be a vital aspect of ensuring the quality of the results of the project and is foreseen in the project application.

Scope of Work:

- **Evaluate Online Matrix:** Assess usability, effectiveness, and gather user feedback.
- **Assess Policy Roadmap:** Analyse comprehensiveness, practicality, and potential policy impact.
- **Impact Assessment:** Conduct surveys, interviews, and focus groups with stakeholders and provide a comprehensive report with findings and recommendations.

Profile:

- Experience in educational project evaluation and impact assessment.
- Knowledge of sustainability practices in education.
